Course of Study.

THE Course of Study in this Institution has been so arranged as to meet the wants of all classes of the school age. The Primary and Academic Departments of Instruction, though not strictly of the College, are nevertheless under the general supervision of the Faculty both as to the methods of teaching and discipline; thus investing them as adjuncts of the College with greater usefulness and value to all those children passing through the elementary stages of an education. It is a point seriously to be questioned, whether the great universities are entitled to that preëminent superiority they so pretentiously claim, which disdain and ignore the necessity and importance of teaching among their "*all-things*" what be the *first principles of human knowledge*.

THE PREPARATORY DEPARTMENT OF INSTRUCTION

Embraces the following studies: First and Second Readers, Watson; Spelling-book, Watson; Primary Arithmetic; Writing on Slates and Blackboards.

THE COMMON-SCHOOL DEPARTMENT OF INSTRUCTION

REMARKS.

In this, as well as in the Primary and Academic Departments, Spelling, Reading, and Writing, are regularly taught. It is designed to furnish, in addition to the above Classical Course, opportunity for a liberal Academic education to both the sons and daughters of our patrons; and, if the demands of female education require it, facilities will be provided at once for an enlarged and full course of classical, scientific, and art study, embracing Painting, Drawing, and Music.

Instruction in this department will be thorough, and satisfactory proficiency in the Classical Course will be required in order to admission into the Freshman Class.

SCIENTIFIC COURSE.

This has been arranged to meet the wants of a class of students desiring to pursue a select course, exclusive of the Ancient Languages. The Mathematics will be the same as in the College Department of the Classical Course. It will embrace also a full course of instruction in the branches of Natural Philosophy, Natural History, Book-keeping, Moral and Social Philosophy, General History, and English Literature.

MILITARY FEATURE.

Believing that better results may be obtained in scholarship, in discipline and health, with a military organization connected with our daily exercises than without it, we have obtained a number of guns from the State, and have introduced the drill in infantry tactics as a regular part of the instruction; but the time thus occupied—averaging less than three-quarters of an hour a day—is taken exclusively from the hours of recreation.

The drill is obligatory on all young men over fifteen years old, unless physically unfit to bear arms; or, in some cases, a special agreement to that effect may exempt a student from military duty.

Upton's Infantry Tactics is the text-book used.

An inexpensive, genteel uniform will be adopted.

MATRICULATION.

Young men are expected to call upon the President of the Faculty, on arrival at Weaverville, for the purpose of attending the school, or so soon thereafter as possible, and enroll their names and ages, give address of their parents or guardians, sign a pledge strictly to conform to all the laws and disciplinary regulations of the College until regularly dismissed, and make satisfactory arrangements for the expenses of the Term.

The Contingent Fee must, in all cases, be paid on entering.

EXAMINATIONS.

These are of two kinds—oral and written—conducted at such times as the Professors may select. Two general oral examinations of each Class are held during the Session, which every student is required to stand. The first or intermediate examination is held about the middle of the scholastic year in the presence of the Faculty, embracing the subjects of instruction for the First Term. The second and final examination is held at the close of the Second Term, and is publicly conducted under the direction of a committee of literary gentlemen chosen by the Faculty.

DEGREES AND DISTINCTIONS.

Students who complete satisfactorily either the Classical or Scientific Course of Study, and show themselves, in their final examinations, accurately versed in all the subjects treated of in the lectures and correlative texts, will be entitled to graduate and to receive a suitable Diploma, on the payment of the usual fees, provided all dues to the College have been satisfactorily adjusted and settled.

PRIZE MEDALS.

The following Gold Medals are awarded at Commencement of each year:

The Oratorical Medal, given by Dr. J. A. REAGAN, Weaverville, N. C.

The Declamation Medal, given by Messrs. W. E. and C. P. WEAVER, Weaverville, N. C.

The Mathematical Medal, given by Hon. R. B. VANCE, Riverside, N. C.

The Language Medal (on Latin and Greek), given by M. E. CARTER, Esq., Asheville, N. C.

The Department Medal, given by H. A. GUDGER, Raleigh, N. C.

Prizes are also awarded in the Academic School.

LITERARY SOCIETIES.

The Delphian and Cliosophic Literary Societies, established by the Faculty and Students, hold weekly-meetings for literary exercises, are conducted with skill, and form an interesting and important part of our literary organization. They have small though constantly-increasing libraries.

Secret Societies in connection with the College are strictly prohibited, as utterly valueless, and only productive of evil.

DISCIPLINARY REGULATIONS.

It is the aim of the Faculty to make the discipline of the Institution parental and kind, and yet firm.

The College will seek to surround the students with an atmosphere of honor, purity, and piety, and to inspire in them such an enlightened sense of true self-respect as will enable them to achieve for themselves one of the sublimest ends of a normal and symmetrical education—*self-government*.

The Faculty wish it to be distinctly understood that membership and good-standing in Weaverville College are conditioned simply and positively upon conformity to the sound morality of the Bible, gentlemanly behavior, and the duly-announced laws and prudential regulations of the College.

Want of moral character, and reckless indifference to law and order, will utterly disqualify any young man for admission or retention in this Institution. The use of ardent spirits and fire-arms, card-playing, or gambling of any kind, fighting, profanity, or other gross violations of order, *are forbidden*.

CIRCULAR REPORTS.

These reports, sent at the close of each Term to the parent or guardian of the student, will contain an account of his proficiency and diligence in study, and also of his general deportment.

RELIGIOUS CHARACTER.

This school is strictly non-sectarian. Students are required to attend Church at least once every Sabbath, and to be present at morning-prayers at the opening of the school.

LOCATION.

Weaverville College is situated nine miles north-west of Asheville, aloof from the contaminating influences of town or city. Here young men are not exposed to the evil temptations that in cities and towns beset the young of that age when youths are led astray, and when habits are contracted that determine the future character, conduct, and consequent happiness of man. The charter of the Institution inhibits the sale of liquor near the College; besides, the laws of the State forbid liquor being sold or given to a minor. This country is so very, very healthful, that epidemic diseases are wholly unknown in the country. There are no allurements to divert the mind from study, and lead to the

formation of bad habits; on the contrary, the College is situated in the midst of a moral, quiet, healthy, intelligent, and religious community.

Students from North Carolina and South Carolina can come by railroad to Asheville, or to Hendersonville, N. C., and thence by stage to Asheville, which is near the College. From Virginia, Tennessee, and the South generally, they can come by railroad to Wolf Creek, Tenn., and thence forty-five miles by stage up the French Broad to within three miles of the College.

POST-OFFICE.

All communications for the officers and students should be directed to *Weaverille, Buncombe County, N. C.*

TERMS AND VACATIONS.

There are two Terms in the year. The first or Fall Term begins on the first Thursday of October, and continues twenty weeks. The Second Term begins at the close of the first, and continues twenty weeks.

Our First Term for the next Collegiate Year begins on Thursday, Oct. 6, 1881.

PRICES OF BOARD, TUITION, ETC.

Comfortable dormitories can be obtained near the College, free of charge, in which students, if they prefer, can mess.
